LinkedIn: mikolaj-hilgert

I am committed to my work and have a strong desire to learn new skills and collaborate with others. Furthermore, growing up in a multicultural environment has made me more open, approachable, and adaptable to difficult situations. I am good at group organization, ensuring that all project goals are met on time. My current decision to pursue a Bachelor of Science in Software Engineering was motivated by my interest in practical problem solving. I'm also very interested in business, which I intend to incorporate into my future studies at JADS (Jheronimus Academy of Data Science) with the Data Science in Business and Entrepreneurship master's program.

## SKILLS

<b>Technologies</b>	C#, Python, Java, ReactJS, Scala, Microsoft Azure, Apache Spark, Apache Airflow
<b>Tools</b>	Git, MySQL (MariaDB), Adobe Suite (PS & AE), Office, Cinema4D, $\LaTeX$
<b>Communication</b>	English (native), Polish (native), Czech (proficient), German (B1)

## EXPERIENCE

<b>Trainee Software Engineer (Part-Time)</b> <i>Building Blocks (Part of CM.com)</i>	<b>Mar 2023 — Present</b> <i>Tilburg, The Netherlands</i>
---	--

- Working part-time in the Engineering tribe, specifically on product development.

<b>Software Engineering Internship (Full-Time)</b> <i>Building Blocks (Part of CM.com)</i>	<b>Sep 2022 — Feb 2023</b> <i>Tilburg, The Netherlands</i>
---	---

- Worked full-time as an intern within the Engineering tribe.
- Extended the internal data science solution tooling with data loading & encryption functionality.
- Worked extensively with: Java, Apache Spark, Scala & Microsoft Azure.

<b>Research Student Internship (Part-Time)</b> <i>Microsoft</i>	<b>Feb 2019 — Jun 2019</b> <i>Prague, Czechia</i>
--	--

- Intern as part of the Quantum computing team.
- Conducted Market research.

## NOTABLE PROJECTS

<b>Data-Pipeline Developer</b> <i>Canon - OSE Group</i>	<b>Sep 2021 — Jan 2022</b>
--	----------------------------

- Worked as a group of 5 in a Scrum environment.
- Worked on the ETL Data-pipeline. Development was in Apache Airflow using Python.

<b>Full-Stack Developer</b> <i>withdrive - Individual University project</i>	<b>Sep 2021 — Jan 2022</b>
---	----------------------------

- Spring Boot and React Java Full Stack Application with Gradle.
- Implemented web-security for the application using the Spring Security Framework.
- Conducted extensive testing: Mocked unit tests with JUnit, API testing with Postman and front-end testing with Cypress.
- Implemented a full CI/CD pipeline including deployment to Docker.

## EDUCATION

<b>Pre-master in Data Science in Business and Entrepreneurship</b> , JADS (Tu/e & Tilburg University) <b>Grade: 8.0</b>	<b>Jan 2023 — Jul 2023</b>
⇒ Courses: Programming, Data-structures and Algorithms, Introduction to Machine Learning, Foundations of Databases, Statistics for Data Scientists	

<b>Bachelor of Science in ICT &amp; Software Engineering</b> , Fontys University of Applied Science	<b>2020 — 2024</b>
⇒ Courses: Application Development, Object-Oriented Development, Web Application Development, Agile Development of Client-server Applications, Academic Preparation Specialisation	

<b>International Baccalaureate Diploma and IGCSE</b> , Prague British International School (PBIS)	<b>2007 — 2020</b>
⇒ Courses: English A HL, Business and Management HL, Computer Science HL, Mathematics SL, Physics SL and German B SL	

## ACTIVITIES

Basiswiskunde Math B - Eindhoven University of Technology	2021
Lead of Electrical Enegenering Club (Helping younger students with Arduino projects) - PBIS	2018 — 2020
CERN S'Cool LAB Team organiser - PBIS	2019
